This matter is before the Public Service Commission of South Carolina (the Commission) on Carolina Power and Light Company's (CP&L's or the Company's) request for a continuance of the fuel hearing currently scheduled for September 7, 1993. CP&L asserts that pending matters in North Carolina which may have an effect on the issues in this proceeding should be resolved in the next 30-45 days. Consequently, CP&L requests continuance of the hearing until the next available date.

Based upon CP&L's assertion, the Commission finds and concludes that this proceeding should be continued past September 7, 1993. The current fuel factor of 1.425 cents per kilowatt hour shall remain in effect through November 30, 1993.
